Top fastener companies rank by Ministry of Economics: <https://fbfh.trade.gov.tw/eai102/>

The table above is compiled from the import/export data of Taiwanese fastener companies provided by Bureau of Foreign Trade (Taiwan) and Small and Medium Enterprise Administration (Taiwan). The figures reflect the actual trading values exported from Taiwan, but exclude the values of products sold worldwide via their overseas manufacturing bases; therefore, the given figures do not completely represent full-range revenues of all companies.

In 2012, there were 37 fastener companies, each with its export value up to USD 22 million. The total export value of all companies aggregated to USD 1,720.21 million. In 2013, 3 more fastener companies were added, extending the list to 41 companies with an aggregated export value of USD 1,774.19 million. ■
