## Best Value Solution Provider for Pre-coating on the Fastener Professional Pre-coating Service by **TSLG**

**T**aiwan Self-Locking Group (TSLG), just celebrated their 40th anniversary last year. As a renowned provider of pre-coating service and advanced coating technologies for all types of specialized fasteners. They provide efficient pre-coating services for locking, sealing, thread protection, anti-seize, insulation, lubrication, and many other functions. They offer the best solutions for fasteners to customers worldwide.

TSLG innovate in the pre-coating industry for over forty years, with the goal of improving life quality for their customers with reliable products. At the same time, they are committed to provide valued solutions to customers. They cooperate with world-leading adhesive brands, such as NYLOK, precote, Locite...etc to develop advanced pre-coating technology. Moreover, they value customers as strategic partners and support product development even establish standards together. With this partnership, TSLG is a designated supplier by world-famous manufacturers in different industries.

TSLG currently has 9 automated (modernized) factories and 2 offices in Asia, with a total productive area of 124,506 square meter, more than 2,000 employees, and 624 production lines with an annual production capacity of 87 billion pcs. **Except business facilities in Taiwan (Yangmei / Taichung / Kaohsiung) and China (Kunshan / Dongguan / Wenzhou / Chongqing), they also expanded business into Southeast Asia market in 2024 such as Vietnam and Thailand.** With all the capacity, TSLG will provide efficient services and higher quality pre-coated products for global customers.

TSLG not only participates in the market of automotive, consumer electronics, bicycles, and other high-end industries, but also expands to AI-related industries. Furthermore, TSLG offers quality product through advanced management system and automatic production line. With these resources, TSLG hopes to be the reliable and supportive partner for customers and the industries. ■
